To: kyle kaszynski <kyle@mycophyte.com>

Hi Kyle,

Thanks for reaching out and that sounds like an interesting project you are undertaking. By all means, please use the images we have published for this that you include the source of the image i.e journal citation, but your publisher would know more about that. Please send along a link to the finished paper once you have another paper that was published today that may also be of interest.

Zamir K. Punja, PhD

Professor,

Plant Pathology/Biotechnology,

Dept. of Biological Sciences,

Simon Fraser University,

Burnaby, B.C. V5A 1S6,

Canada
