Hi Kyle,

The top two images are fine to use, but I cannot approve the use of the X-ray image. That is outside of my authority.

Beth,

Attached are the images from Tom's lecture slides that we are hoping to use in the book (there are only 2 we are using). I can also reach out to Dr. Abler directly if that would make

things easier, or even put him in contact with our publisher. Let us know what works best for you and/or Dr. Abler.

Kyle & Brandon
